

VACANCY CALCULATOR (JUNIOR)

Come and join our business office as Calculator (junior).

We are looking for a calculator who loves to work accurately and is keen on details. And who is a fan of lean-thinking; keep on thinking and exploring how to make things simpler and cheaper.

Excited about this vacancy, but not quite there yet when talking about relevant steel working experience? For this vacancy you can also apply as a Junior; our colleagues will be happy to train you on-the-job!

Job description:

As a calculator it is your job to make cost price calculations for steel and (turnkey) building projects.

You will have a hands-on position in our business office. You will work closely with your colleagues of engineering, workshop and assembly. It is important that you take your part in the total process of determining the cost price.

Projects will be national and international, in Dutch and in English.

Depending on your growth and level of independence, authority on independently send quotations to clients is possible. Our Operational Manager is your direct executive.

Which qualifications do we look for:

- Your communication is effective
- You ask questions pro actively
- Reading designs and plans is no problem for you
- You also have a technical knowledge of steel construction on an intermediate vocational education level. Experience in (turnkey) building is a preference.
- Your insight in figures is good
- You're used to working in Word and Excel
- You're experienced in working with an ERP system

Our commitment to you:

Our company goal is a qualitative, long-term and durable working environment

- A market based salary with good secondary terms and conditions of employment
- Working from home for 1 day per week can be discussed
- Possibility to follow education and training
- Friday-afternoon-fun with colleagues
- In company work-out with colleagues at the end of a working day
