

VACANCY SUPERVISOR NATIONAL AND INTERNATIONAL PROJECTS

Want to join our (assembly)team as a Supervisor?

We are looking for a self-supporting hands-on supervisor for our national and international projects.

Job description:

As a colleague of our Assembly Manager your main job is to assist him in making sure that our project teams in the Netherlands and abroad execute our projects within our company guidelines for safety, quality and building time. From start at building site till completion of the project. Our Operational Manager is your direct executive.

Which qualifications do we look for:

- You coordinate, delegate, instruct and motivate our own and hired project teams
- Active hands-on participation in the work on our (inter)national steel and (turnkey) building projects
- You make preparations for the assembly work together with our Assembly Manager and the planning officer
- You check on work done; you make progress reports and lay down agreements made internally and externally
- You have finished an education in Construction, Mechanical Engineering or equivalent Completed with relevant professional trainings and certificates like SCC (safety certificate constructors), emergency response, man lift certificate
- Several years of experience in the execution of steelwork projects (utility and/or industry)
- Your English is up to a good level (also Spanish is a preference)
- Willingness to work and stay abroad during the execution time of a project (approx. 2 till 15 weeks)

Our commitment to you:

Our company goal is a qualitative, long-term and durable working environment

- A market based salary with good secondary terms and conditions of employment
- Possibility to follow education and training
- Friday-afternoon-fun with colleagues
- In company work-out with colleagues at the end of a working day
